WHAT WE OFFER

What we do

The primary activities of BOF BANK as an investment bank include capital raising, merger and acquisition advisory, financing with long-term debt or equity arrangements, and trading in securities as well as derivatives such as futures contracts. The services offered range from the creation and issuance of financial instruments such as bonds, notes and debentures, through the provision of debt financing, to investment advice and portfolio management.

BOF BANK Investment Banking is highly competitive in terms of fees. We ensure the highest levels of client satisfaction and loyalty by providing timely transaction execution, as well as resolution through portfolio refinancing, redemption or collateralisation. Our fee model is very simple: the best possible service at the most reasonable cost.

Providing a wide range of financing, advisory and trade finance solutions to corporates, financial institutions, sovereign and agency clients, we are experienced in global markets. Our strong research capabilities enable us to provide tailored solutions for emerging markets, including compliance support on a global scale.
