

Investment Funds

[Home](#) / [Services](#) / [Investment Funds](#)

Investment funds pool investors' monies together. Each BOF Fund is designed with different risk objectives and investment policies, which dictate the asset allocation within the fund, so you can choose the one that meets your specific needs.

[ASK ABOUT BOF FUND 1](#)

[WHY INVEST THROUGH A FUND](#)

The BOF Fund 1

Through our BOF Fund 1, you can invest in specialist and geographic areas where you might not have the expertise and knowledge to invest on your own. By holding BOF Fund 1 units, you can invest in multiple asset classes including equities, bonds, commodities and alternative investments.

We use active asset allocation to take advantage of the changing opportunities in each asset class, to diversify risk and to seek to improve the returns on your investment.

How to invest in BOF Fund 1

Contact our Fund Management team at support@bofbank.com for further information on BOF Fund 1 and its subscription form.

Benefits of investing through a fund

- ✓ Spread your portfolio across a more diverse selection of investments
- ✓ Access investments that may be inaccessible to you as an individual investor
- ✓ Your personal Investment Manager can potentially access investments more cost-effectively
- ✓ An effective way to manage capital gains tax (CGT)

ASSET CLASSES

One holding, multiple markets.

Holding BOF Fund 1 units gives you exposure across the following asset classes, with the allocation managed actively by your Investment Manager.

- ### Equities

Exposure to international equity markets through regulated collective investment schemes, onshore and offshore.

Bonds

Sukuk, bonds and other fixed income securities, including Shariah compliant fixed income investing.

Commodities

Specialist areas where you might not have the expertise and knowledge to invest on your own.

Alternative investments

Access to investments that may be inaccessible to you as an individual investor.
